12" Mega Truss Pick

The Mega-Truss Pick is CNC machined from solid 1" x 6" 6061 T-6 aluminum billet. Two pockets cut into the Mega-Truss Pick have coupler style aluminum pivoting links, half inch swivel bolts, and our solid wing nuts to completely wrap around the truss tube to secure it.

The Mega-Truss Pick has one top and one bottom rigging hole for attaching the truss to a shackle, motor, or chain hook. It will suspend up to one ton of truss load, plus an additional one ton load suspended under the truss. Fits 5/8" Shackle and larger.

Please note that these do not fit Global Truss. See Global Truss Picks for correct part number to order.

Working Load Limit	1 ton truss / 2 ton total
Hardware	1/2"-13 steel swivel eyebolts with solid aluminum wing nuts.
Dimensions	1" Thick x 6" Tall x 13-3/8" Long (1.5" Diameter Rigging Holes for Single Hole Truss Pick; .781" Diameter Rigging Holes for Multi-Hole Truss Pick)
Weight	4.15 lbs. (Multi-Hole – 4.28 lbs.)
Case Quantities	Each
Order Codes	MTPI2MH 12" Multi-Hole Mega-Truss Pick, 1 Ton, Silver MTPI2 12" Mega Truss Pick, 1 Ton, Silver MTPI2B 12" Mega Truss Pick, 1 Ton, Black MTPI2MHB 12" Multi-Hole Mega-Truss Pick, 1 Ton, Black MTPI2MHW 12" Multi-Hole Mega-Truss Pick, 1 Ton, White Powder Coat
