## The Light Source

## 12" Mega Truss Pick

The Mega-Truss Pick is CNC machined from solid  $1'' \times 6''$  6061 T-6 aluminum billet. Two pockets cut into the Mega-Truss Pick have coupler style aluminum pivoting links, half inch swivel bolts, and our solid wing nuts to completely wrap around the truss tube to secure it

The Mega-Truss Pick has one top and one bottom rigging hole for attaching the truss to a shackle, motor, or chain hook. It will suspend up to one ton of truss load, plus an additional one ton load suspended under the truss. Fits 5/8" Shackle and larger.

Please note that these do not fit Global Truss. See Global Truss Picks for correct part number to order.

**Working Load** 

I ton truss / 2 ton total

Limit

Hardware 1/2"-13 steel swivel eyebolts with solid

aluminum wing nuts.

Dimensions I" Thick x 6" Tall x 13-3/8" Long (1.5"

Diameter Rigging Holes for Single Hole Truss Pick; .781 Diameter Rigging Holes for Multi-

Hole Truss Pick)

**Weight** 4.15 lbs. (Multi-Hole – 4.28 lbs.)
