The Light Source

Mega-Coupler

The Mega-Coupler has solid wing nut tabs that are stronger than regular steel wing nuts. The grade 8 Hex Head Cap Screw locks securely into the hex milled pocket so that the nylock nut can be tightened while the damp is installed

The Mega-Coupler fastens from (I-I/4" Pipe) I.66" OD to 2" OD truss tube and has the industry compatible 14 mm thick base.

Although I/2" is the most frequently used hardware size, the Mega-Coupler also comes in a 3/8" and 1/4" size. Other Mega-Coupler options include stainless steel hardware, steel wing nuts, Metric M-12 and M-10 hardware.

For countersunk Mega-Couplers, see the Flat Head Mega-Coupler section.

For replacement parts, see the Spare Parts section.

1.25" pipe, 1.66" OD pipe **Minimum Size**

1.5" pipe, 1.90" OD pipe, 2" OD truss tube **Maximum Size**
