# The Light Source

# **Mega-Coupler Parts**

## **BOLT ASSEMBLIES**

Mega-Coupler Bolt Assemblies indude the Mega-Coupler swivel bolt, a 1/2" SAE washer, and a 1/2" nut. Also available in stainless steel.

### HARDWARE PACKS

Sets of bolts, nylock nuts and Belleville Washers. Packs for 1/2" Mega-Couplers include 12 sets. Packs for 3/8" Mega-Couplers include 24 sets.

### SPIROL PIN

The spirol pin locks a Mega Swivel Coupler into a 90 degree position.

#### METRIC

Countersunk Mega-Couplers can be converted to metric using metric bolts and nuts.

The M-I2 fits the I/2" Countersunk Mega-Coupler. The M-I0 fits the 3/8" Countersunk Mega-Coupler.

# WING NUTS

The Light Source wing nuts are available for OEM products. They cannot be used as a replacement nut on the Mega-Coupler since the wing nuts are permanently attached to the bolt to prevent loss. To replace a wing nut, the bolt and wing nut assembly must be used.
