## The Light Source

## **XYZ Channel**

The XYZ Channel and the XYZ Mount make installing LED video walls a breeze. The 606 IT6 aluminum alloy channel is pre-drilled on one inch centers for number I2 flathead screws to allow easy mounting to I6" and 24" on center studs. The XYZ mount slides in from the side to any desired location and is locked in place with a set screw. Available in two lengths, I800 mm and 2400 mm, to match most LED panels.
